Trans. of Int. Principles of Coal Petrology.
Moscow, 1960, p. 272-283.

DESCRIPTORS: *Coal, Physical properties, Chemical
properties, Petrology, Plasticity. *Coke, Production.

The coking-capacity of coal is a complicated physical-
chemical property which depends upon many factors.
The basic factors which determine the coking-
capacity as well as the other physical and chemical
properties are the petrographic composition, the de-
gree of coalification and the percentage of ash.
